Metal Conservation Conference

This meeting will be held in Hildesheim, Germany, 7 -10 November 2001. It will be hosted by Fachhochschule Hildesheim/Holzminde n/Göttingen and its objective is to help to identify priority areas within European conservation teaching and research so as to help best develop the proposed new metal conservation section within this organization. For further details contact Dr Jack Ogden, Specialist for the Technology of Ancient and Historic Metals and Jewellery, University of Applied Arts and Sciences, Hildesheim, Bismarkplatz 10/11, D-31134, Hildesheim, Germany, Fax: +49 5121 881 386; Mobile: +49 173 615 65 82.

5th International Gold Symposium

This conference is being organized by the Gold Committee of the National Mining Oil and Energy Society (SNMPE) and will be held in Lima, Peru on 14 - 17 May 2002. The programme is entitled 'Gold in the 21st Century'. Topics will include overview and prospects of the gold market, new operations in the region, geological discoveries and new projects in Latin America, technological progress and the environment and mining development. Further details can be obtained from: Comité Aurífero, Sociedad Nacional de Minería, Petróleo y Energía; Tel: + 51 1 460 1600; Fax: + 51 1 460 1616; E-mail: cmendoza@snmpe.org.pe

LBMA Precious Metals Conference

The next London Bullion Market Association Conference will be held in San Francisco on 10 and 11 June 2002 in association with the Gold and Silver Institutes' Annual Meeting. Further details can be obtained from the LBMA, 6, Frederick's Place, London, EC2R 8BT.

Call for Papers

Now that *Gold Bulletin* is reverting to free distribution (see Editorial, Issue No.1) and our circulation is set to increase, publication of research results in this journal will become of greater significance.

We are keen to publish primary experimental results on gold and its derivatives. Short notes, papers and announcements of innovative results will be welcome, especially where the gold materials used are the key components.

Our interest in publishing review articles, book reviews, and conference reports will also continue.

The 'Guidelines for Submission of Papers' can be found on page 74 of the previous issue.
